

# NUIX DISCOVER®

Better Early Case Assessment

**Nuix Discover transforms early case assessment** from one-dimensional keyword searching and hit counts (common in linear review applications) to multi-dimensional, visual analysis of social networks, concepts, custodians, and critical data points. In this way, Nuix Discover delivers far more than just early case assessment, but also provides the roadmap to quick, cost-effective document review.

## THE NUIX DISCOVER ADVANTAGE

- **Determine who knew what when.** Designed to streamline the review of email communication patterns between people and organizations, Nuix Discover’s Social Network Analytics contains three unique “panes” that can be used individually or in tandem in a Nuix Discover workspace.
- **See key terms quickly.** Use the Concept Cloud in tandem with the social network visualizations to display the concepts contained within communications selected in the social networks.
- **Evaluate search terms.** Analyze thousands of search terms and phrases against any-sized custodian population and present interactive “hit-reports” that allow teams to test and sample a variety of search term families without having to run individual searches.
- **Identify gaps.** Quickly highlight gaps or inconsistencies in your collection or a production from the other side. Is there data missing from key custodians? From a critical time-frame? Around a specific topic? Nuix Discover can show you what’s missing.
- **Cull via predictive coding.** Harness the power of predictive coding to rapidly narrow the data set to the most responsive and relevant documents.

*Nuix Discover’s intuitive user interface allows reviewers to complete each task with fewer clicks.*

## LESS NOISE AND MORE ANSWERS WITH ANALYTICS AND VISUAL REVIEW

Easy to learn, use, and master, Nuix Discover will quickly become an invaluable part of your daily work as you find hot documents, spot notable case trends, and prepare for depositions or the courtroom. Designed to reduce the complexity and workload associated with document review projects of all sizes, Nuix Discover wraps the power of concept clustering, visual review, and smarter workflows in an easy-to-use, logical user interface.

### SMARTER DOCUMENT REVIEW

From prioritizing the right documents to leveraging coding hints to using the latest in technology assisted review, teams using Nuix Discover are more engaged and productive.

### REAL-TIME UPDATES VIA REVIEW DASHBOARD

Easily view and monitor the progress of any document review or investigation with Nuix Discover's Review Dashboard. Within one easy-to-read dashboard, administrators can get up-to-speed quickly to assess the key metrics of any review.

### BETTER POST-PRODUCTION WORKFLOWS

Nuix Discover makes post-production work more efficient via a complete suite of tools including transcripts, linking, and mobile binders.

### ANALYTICS AT EVERY PHASE

No other eDiscovery software platform provides as many integrated, interactive analysis tools as Nuix Discover, including keyword search analysis, data mining, concept clustering, and predictive coding.

### VISUAL QUALITY CONTROL WITH DOCUMENT MAPPER

Useful for quality control on review or post-production documents, Document Mapper can quickly reveal coding inconsistencies by showing disparate coding decisions on conceptually similar documents.

*Nuix Discover's Social Network Analytics panes help streamline the review of communications.*

Discover the Nuix Discover early case assessment difference for yourself.
