

Nuix Workstation

DATA DISCOVERY SPECIALIST

The Nuix Workstation Data Discovery Specialist training class will take participants through a complete workflow using Nuix Workstation in the following ways:

- Examine how to recognize and manage ingestion settings depending on source data
- Learn how to conduct effective quality assurance checks to identify data issues
- Explore different culling techniques and discuss their merits and pitfalls
- Participants will review searching, tagging, reporting, and additional culling workflows to enable stakeholders to quickly review key issues or results
- Identify techniques to create quality production sets and exports for further review, exchange, or use in court

Students will be enrolled in the Nuix Workstation Data Discovery Specialist exam. Passing of the Nuix Workstation Data Discovery Specialist exam is a requisite for the Nuix Data Discovery Master certification.
