Understanding data is not getting easier. Growing data volumes, new file formats, fragmented devices, and cloud services make the task ever more complicated.

Nuix Workstation is the world's leading technology for extracting intelligence from high-volume unstructured, semi-structured, and structured data. It provides unmatched speed, scale, and accuracy to processing, searching, indexing, and analyzing the information you need.

THE NUIX ADVANTAGE

- Get the big picture, fast. Quickly and comprehensively answer the fundamental questions of any matter and make early case assessments with all the facts at your fingertips.
- **Mitigate risks.** Nuix Workstation delivers a consistent, repeatable, and forensically defensible process across each item and data source.
- **Empower your experts.** We provide insights like no other technology, revealing and contextualizing the stories hidden in data.
- Capture everything. Nuix Workstation's efficient and scalable processing turns more than 1,000 file formats and source types into meaningful information, capturing the content, metadata, and context of each item.
- Use one tool for multiple use cases. Our customers use Nuix Workstation for litigation, forensic investigations, information governance, government oversight, mergers and divestitures, compliance, data and email migrations, and regulatory enforcement and response.

Nuix Workstation gives you one view into all your evidence sources by harnessing the patented Nuix Engine.

USE CASES

INVESTIGATIONS

Nuix Workstation helps law enforcement, government, and corporate investigators extract, correlate, and contextualize data to make fast, accurate decisions. We help you cut through the noise, filtering out meaningless data to find the key facts.

LITIGATION

Nuix Workstation delivers consistent, repeatable, and defensible eDiscovery workflows that scale from a single workstation to a global enterprise. You can shorten the time to early case and early data assessment, minimize review and production volumes, and promote results directly to Nuix Discover.

INFORMATION GOVERNANCE

Nuix Workstation provides information transparency into enterprise content so you can mitigate risk, respond to regulations, tackle audit and compliance needs, and manage information from creation to disposition or remediation.

DISCOVERY AND INFORMATION MANAGEMENT SERVICES

Service providers and advisory firms use Nuix Workstation for client projects that need fast, accurate processing of vast, complex data sources. You can also leverage it for value-add data indexing and optimization projects that enable your clients to reduce costs, mitigate risks, improve governance, and make better business decisions.

FEATURES

GAIN ONE WINDOW INTO ALL THE EVIDENCE

Collect all available data into a single location, use advanced investigative techniques to understand the content and context, and then act on the intelligence you've extracted.

SCALE TO THE LARGEST DATA VOLUMES

No matter the size of your data set, Nuix lets you start working immediately while processing, saving you time and effort.

AUTOMATE CONNECTIONS

Nuix Workstation automatically identifies and correlates key intelligence items such as company names, sums of money, email addresses, IP addresses, and national identity, phone, and credit card numbers. The Data Finder extension gives you more than 180 additional identifiers and the ability to create your own.

FOSTER FLEXIBLE WORKFLOWS

With multiple deployment options, customization scripts, and specialized workflows that maximize productivity, Nuix Workstation is as flexible as your business requires.

INCLUDE ALL POSSIBLE INFORMATION

Nuix Workstation processes 10 dimensions of data, including human-generated, multimedia, log files, user data, network, cloud, structured, real-time, communication patterns, and mobile.

Save time, increase productivity, and streamline workflows.
