

LINK ANALYSIS IN NUIX NEO, POWERED BY LINKURIOUS™

Nuix Neo's market leading graph visualization for the dynamic analysis of hidden relationships in the most complex datasets.

Nuix Neo is the technology platform for mastering your enterprise's largest and most complex data needs - at remarkable speed, scale and with forensic confidence and defensibility.

Linkurious is a pioneering graph data link analysis and visualization technology with over 10 years of providing global customers with market leading insights. Now, with Linkurious, Nuix Neo users can leverage graph data through dynamic, interactive visualizations, revealing hidden relationships and enabling more informed decision-making.

“Using Linkurious functionalities, our clients are able to reconstruct connections involving multiple levels of separation that would be impossible to identify with the traditional systems available to the investigation team.”

SENIOR MANAGER, GLOBAL FORENSIC ADVISORY

NUIX NEO + LINK ANALYSIS ADVANTAGES

From Messy Data to Deep Insight and Rapid Intelligence

Nuix Neo's market leading data platform enables analysis of the most complex data - rapidly automating the entire process from raw source data through to actionable intelligence and insight, with the critical precision and rigour customers need and expect.

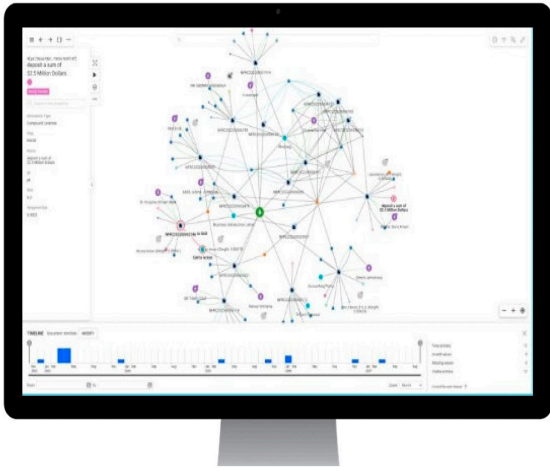

Customers using Nuix Neo's automated capabilities report up to 80-90% efficiency gains across their data investigations programs. In one recent example a complex 40-terabyte case that previously required 10 people over a month to complete, was completed by less than half the people in just two weeks.

Deeper insight, less Investigation Time

Now with Linkurious' link-analytics and visualization, the result is even faster time to meaningful insights with Linkurious customers reporting material increases in fraud detection rates, 10x faster investigations and up to 30% less triage time.

Broad Capability

Supporting a wide range of critical use cases. Including corporate investigations, law enforcement, early legal case assessment, data breach and IP loss, financial misconduct, cartel behaviour and collusion, customer complaints insight and fraud and financial crime.

Nuix Neo with Linkurious link analysis makes it easy for technical and non-technical users alike to identify, assess, and interrogate data to uncover insights and relationships otherwise hidden.

GRANULAR INSIGHTS FROM COMPLEX DATA

By ploughing through oceans of the most complex enterprise data, the Nuix Neo platform identifies meaningful and actionable insights at speeds and accuracy impossible for humans.

Linkurious takes that experience and value to the next level by enabling customers to visually explore and investigate graph data, to detect hidden patterns of interest and investigate alerts.

FIND WHAT MATTERS MOST TO YOU

You can apply Nuix Neo and Linkurious to any content analytics use case including:

- > **Investigations:** Gain an even deeper understanding of the hidden connections to quickly find critical information across financial crime, fraud and other investigations.
- > **Data security:** Even more quickly assess your content environment – understand where the high-risk content is and who is accessing it to identify and mitigate security events – and quickly respond when they occur.
- > **Legal matters:** Ensure you find all the relevant evidence and critical documents and connections for key insights to drive accelerated case theories
- > **Governance, risk, and compliance:** Identify content risks related to privacy regulations and other governance, audit and compliance needs.
