NOTICIA SLASHES EDISCOVERY COSTS BY 75% WITH NUIX DISCOVER AND EXPERT MIGRATION

KEY TAKEAWAYS

75% COST REDUCTION
Slashed eDiscovery expenses, removed per-gigabyte hosting fees/processing charges

0% DISRUPTION MIGRATION
Seamless transfer of 100 load files across 22 active cases without interruptions

 **DEPLOY YOUR WAY**
Nuix Discover can be deployed on-premises, cloud or SaaS for complete flexibility and control

 **ACCELERATED USER ADOPTION**
Intuitive platform, leading to firm-wide adoption for 100% of eDiscovery needs

 **ENHANCED EFFICIENCY**
Handling increased caseloads with greater speed and consistency

 **AI REVIEW**
Automatically rank relevance, highlight key issues, flag materials requiring human review

 **CANADIAN COMPLIANCE**
Ensured adherence to Canadian privacy laws with 100% Canadian data hosting and bilingual support

ABOUT NOTICIA

Noticia LLP, a premier Canadian eDiscovery firm, was founded by legal veterans Duncan Fraser and Philippe Gollin. With a combined experience spanning decades in public and private practice, they established Noticia to make the eDiscovery process easier, faster, and more predictable for their clients. The firm is known for its bilingual support, personalized service, and deep expertise in navigating the Canadian legal landscape. As a dedicated Nuix partner for over seven years, Noticia has consistently leveraged Nuix technology to deliver exceptional results.

A major Canadian law firm, one of Noticia's clients, found itself locked into an expensive and outdated legacy eDiscovery platform. The platform's prohibitive per-gigabyte hosting fees, separate processing charges, and complex user licensing models made costs unpredictable and difficult to manage. The technology itself created daily friction, lacking essential features like native email threading and proper metadata preservation, which compromised compliance with Canadian eDiscovery best practices.

THE CHALLENGE: TRAPPED BY LEGACY SYSTEMS

After years of relying on a legacy eDiscovery solution, the team encountered numerous limitations. These included slow case processing, inefficiencies in document review workflows, and heavy reliance on external resources for large, complex investigations.

One standout example highlighted the urgent need for change. A 2021 investigation required the review of 20,000 items. This involved outsourcing five external reviewers at an additional cost of \$40,000, taking three months to complete the task. With a growing caseload and the average case size continuing to increase, the legacy system could no longer meet the needs of the team.

The firm sought a modern, scalable solution with end-to-end capabilities across the eDiscovery Reference Model (EDRM). Their goal was clear – to enhance internal capabilities, reduce reliance on third parties, drive cost efficiencies, and ensure consistency and speed in delivering on their enforcement responsibilities.

THE SOLUTION

Noticia guided the firm through a seamless transition to Nuix Discover, offering flexible deployment options including on-premises, cloud, or a SaaS solution hosted in Noticia's Canadian data center. Leveraging over seven years of experience with Nuix technology, Noticia's dedicated migration team handled the entire process. They successfully migrated the firm's active matters to their selected Nuix Discover SaaS environment, ensuring a smooth and efficient changeover.

This team managed complex format conversions, verified data integrity, and transferred all active matters without any disruption. The solution combined the power of Nuix's modern platform with Noticia's specialized services.

Key components of the solution included:

Nuix Discover SaaS: Leveraging Nuix Discover, with advanced AI, a powerful native processing engine and industry-leading legal review technology, the client selected a SaaS partner hosted deployment arrangement, where the clients data would be hosted entirely in Canada, to meet specific data sovereignty and compliance needs.

Dedicated Migration Services: A specialized team from Noticia managed the end-to-end transfer of 100 load files across 22 cases, ensuring data integrity and zero downtime.

Noticia Go AI Capability: A proprietary UI Extension developed and offered by Noticia that accelerates the review of thousands of documents simultaneously across multiple cases.

Flexible À-la-carte Services: Noticia provided expert technical support and training on-demand, without restrictive contracts or hidden fees.

ACHIEVING TRANSFORMATIONAL RESULTS

By partnering with Noticia to implement Nuix Discover, the law firm transformed its eDiscovery and legal review operations, achieving significant cost savings and efficiency gains.

Dramatic Cost Reduction

The move to Nuix Discover's predictable pricing model eliminated steep per-gigabyte hosting fees and separate processing charges. This resulted in a 75% reduction in the firm's overall eDiscovery costs.

Improved Efficiency and User Adoption

Nuix Discover's modern, intuitive interface, powerful processing, advanced automation, and built-in AI capabilities eliminated the technical bottlenecks of the old system. The new platform was so much easier to use that it was adopted firm-wide for 100% of their eDiscovery needs, enabling the firm to process dozens of matters each month with greater speed and precision.

Nuix Discover brought significant improvements, including better graphics and visualizations, single sign-on and real-time processing to the firm's legal review work. Nuix Discover's unique automation and orchestration allowed generalists, paralegals, associates and counsel to execute expert workflows with the click of a button. Meaning expertise was effectively shared across the team with repeatable, scalable, best-practice workflows, reducing the learning curve and increased user satisfaction.

The switch to Nuix Discover delivered immediate and dramatic results. We achieved a 75% cost reduction while improving efficiency across the board. The platform is simply easier to use, which led to exceptional user adoption and a faster turnaround on dozens of monthly matters.

Duncan Fraser, Partner, Noticia

“
Nuix demonstrates a deep understanding of what legal professionals actually need. The updates to the Nuix Discover platform are seamless. New capabilities and enhancements are integrated without disrupting our workflow, which is critical in the time-sensitive world of eDiscovery. The platform just keeps getting better.”

Philippe Gollin
Partner, Noticia

LOOKING AHEAD

Noticia is committed to expanding the Nuix footprint across Canada. They look forward to the continued integration of capabilities from Nuix Discover, including enhanced audio/video handling, and to advancing multi-tenancy within Noticia’s own hosted environments.

“

This migration trend is exploding. We’re preparing for another major wave of 1000+ case migrations from legacy platforms this fall. Firms are realizing they don’t have to stay trapped in expensive, outdated systems when there’s a better way forward.”

Duncan Fraser, Partner, Noticia

CONCLUSION

The partnership between Noticia and Nuix showcases how the right technology, combined with deep expert guidance, can help law firms and corporate legal departments to overcome significant challenges. By facilitating a smooth migration to Nuix Discover, Noticia not only saved its client substantial time and money but also equipped them with a superior, more efficient platform for the future.

“

Nuix offers the flexibility our clients need. Whether it’s on-premises, in the cloud, or a fully managed SaaS solution like the one we deployed, there’s a model that fits every firm’s unique security, infrastructure, and budget requirements.”

Duncan Fraser, Partner, Noticia
