

NUIX DISCOVER

Conquer the complexities of eDiscovery and legal review with Nuix Discover. Powered by industry leading processing, cutting-edge AI Review, built-in automations, and the flexibility to deploy in any environment. Effortlessly review more data; faster, easier, and smarter with Nuix Discover.

The rising volume and complexity of electronically stored information is overwhelming legal professionals. Unstructured data, huge case data volumes, cost pressures, ingesting challenging modern data types, manual review processes, and the intense scrutiny to ensure no evidence is overlooked, leave legal teams facing burnout, and frustrated by inefficiencies and resource constraints. Privacy concerns and compliance with evolving global regulations further complicate handling sensitive or cross-jurisdictional data. These challenges put immense pressure on legal teams handling eDiscovery and review.

Nuix Discover transforms eDiscovery through intelligent automation and scalable, AI-powered workflows that deliver faster, more accurate document reviews. At its core, AI Review leverages Generative AI to provide preliminary coding recommendations, identify critical issues, and prioritize documents requiring human attention. Nuix's proprietary Cognitive AI (CogAI) with over 600 purpose-built eDiscovery models through AI Enrich, surfacing vital information from day one.

Continuous Active Learning (CAL) technology further refines and accelerates the review process over time. With AI at its foundation, Nuix Discover helps legal teams uncover crucial evidence while ensuring comprehensive coverage across all documents.

Nuix Discover provides legal teams with innovation, precision, speed, scalability, and flexible deployment for exceptional eDiscovery and legal review.

RESPONSIVE REVIEW, DEPLOYED YOUR WAY:

Nuix Discover delivers unmatched flexibility to deploy in cloud, on-prem, or hybrid environments, to uncover vital evidence with precision, repeatability and defensibility at scale. Nuix is an established authority for regulators, law firms, and law enforcement.

With Nuix Discover organizations can:

VISUALIZE YOUR CASE

Understand your case at a glance with a powerful case overview dashboard that highlights key data, trends, and inconsistencies for deeper analysis.

MINIMIZE RISK

Reduce the volume of documents for review, flag privileged materials, and redact sensitive data with visible borders that make redactions clear, even on white-on-white or dark content.

ANALYZE CASE DATA

Unlock a complete understanding of your case with Nuix's powerful AI. Our document analysis, concept clustering and predictive coding gives you a clear, strategic analysis of case data.

AI REVIEW

Harnesses Generative AI to apply coding suggestions, flag documents for human review, and highlight key issues. With precise relevancy scores, natural language insights and document citations, you can gain instant clarity and streamline review.

FLEXIBLE DEPLOYMENT

Cloud, on-prem, or hybrid to accommodate any business model. With SaaS deployments offering elasticity in times of large or urgent caseloads.

THE FUTURE, AT YOUR FINGERTIPS

With Nuix Discover, you're choosing a platform dedicated to your future. Nuix's ongoing innovation will bring new capabilities like semantic search, AI-based topic clustering, and document summarization to customers soon.

Industry-Leading Processing

Ingest and analyze vast amounts of case data with ease. Advanced models for clustering, mapping, and graphing transform complex case details into clear, actionable insights.

AI Review

Leverages Generative AI to suggest preliminary coding decisions, flag documents for human review, highlight key issues, and provide clear relevancy scores with natural language explanations and in-document citations. Identify privileged and responsive materials with unmatched speed, accuracy, and efficiency.

Case Overview Dashboard

Get a high-level view of your matter with key metrics, data types, custodians, and activity trends, along with instant drilldowns for detailed insights.

Multi-Jurisdictional Production

Nuix Discover is engineered to meet multi-jurisdictional production requirements with built-in, configurable quality control rules and automation.

Over 1,000 File Types Supported

Nuix Discover aggregates data sets from disparate sources, analyzing more than 1,000 file types, including modern data sources, at speed.

Cohesive Collaboration

Combine collective knowledge in real time. With a single window into litigation data, case strategy, evidence and reports, insights are shared securely, streamlining collaboration while maintaining control and compliance.

Secure and Reliable

Nuix Discover holds globally recognized certifications including ISO 27001, and SOC2. Combined with 99.9% uptime in our SaaS environment, and zero-downtime upgrades, it ensures seamless and uninterrupted operations.

WHO NEEDS NUIX DISCOVER FOR LEGAL REVIEW?

Organizations, regulators, legal departments, legal service providers, and law firms use Nuix Discover to power their legal review capabilities with responsible AI and built-in automations, deployed in the environment of their choice.

Ask yourself:

- > Can you choose between on-prem, cloud or hybrid for your eDiscovery needs? And benefit from responsible AI and automation in your legal review workflows?
- > How do you manage the growing volume of electronically stored information (ESI) that requires legal review?
- > Can you process case data efficiently from modern data types, like teams, slack, chat, mobile? What are you potentially missing if not?
- > Are you stuck with time consuming manual review processes?
- > How do you meet multi-jurisdictional production requirements, quickly and securely?
- > Do you know what sensitive data you may inadvertently be including in case data sent to third parties for review?
- > How do you ensure compliance with regulatory requirements in eDiscovery?
- > What is the impact on you or your client for failing to review case data in an accurate, timely manner?
