FIND THE FACTS FASTER

Incorporate analytics into your everyday initial and linear review workflows to figure out what's going on and define your case strategy. Industry-best models for clustering, mapping, and graphing distill the whole case into easily understood 'a-ha' moments. Nuix Ringtail's machine learning capabilities mean every time you make a coding decision, your next review assignment is more relevant.

BREEZE THROUGH REVIEW

Escape the repetitive grind of linear review and make faster decisions in a single view. Nuix Ringtail's patented user interface uses visual cues and continuous active learning to ensure reviewers can quickly identify relevance and privilege without needing to search for information from hidden windows, tabs, or other inefficient UI mechanics.
