## **NUIX WINDOWS INVESTIGATIONS · THREE DAY INSTRUCTOR LED COURSE**

The Nuix Windows Investigations course is designed for investigators with previous experience in the Nuix Workstation. It covers advanced techniques for using Nuix Workstation and third party utilities to identify, analyze and report on common artifacts of user activity on Microsoft Windows systems. This training course will examine how Windows stores information in the Windows Registry, the recycle bin, recent items, user directories and system folders in all versions of Windows. It will include a detailed look at email including how to identify, sort, search and deduplicate. Student will learn how browsers store history, cookies, cache files, and how the operating system uses link files, prefetch files, and metadata that can be forensically useful.

- **Prerequisites:** To obtain the maximum benefit from this course, participants should meet the following requirements: perform basic operations on a personal computer, be familiar with Microsoft Windows environments, at least 6 months' experience in forensic investigations and attended the Nuix Foundations – Investigations & Response training course.
- **Class Material:** Training manual with lab exercises.

## MODULE 6: LINK & JUMP FILES

- File system artifacts
- Processing Link files in Nuix
- Windows 8 immersive app link files

## MODULE 7: EMAILS

- Email mailbox processing
- Metadata profiles for email
- Identifying & handling attachments
- Sorting emails, threads & duplicates
- Cluster Runs
- Email visualizing and reporting

## MODULE 8: BROWSERS

- Windows Recycle bin
- Unallocated space
- Web artifacts

## MODULE F2: NAMED ENTITIES

- Review Nuix Named Entities
- Regex

- Basics
- Searching
- Named Entity processing settings
- View Named Entities
- Search Named Entities
- Create custom Named Entities

## MODULE F3: ADVANCED FORENSIC OPTIONS

- Photo DNA
- Deep Learning
- Elasticsearch overview
- mobile phone data analysis

## MODULE F4: VISUALIZING DATA USING CONTEXT

- Context tab
- Analysis graph
- Timeline
- Analysis table
